The most discussed topic in our country today is the matter concerning demonetization. Several aspects of our lives are expected to be affected by the bold and practical step taken by the Indian government. Businesses will be affected in operations, planning, strategies at all.

At KnK we see this situation as a benefit for people with land holdings. It is expected that the land prices and the sale of the properties would see a slowing down. It may not be prudent for property owners to make any hasty decisions until the dust settles and this could be some time.

It is our endeavor to introduce to the owners of big and small land holding, to consider using their property during this interim period of uncertainty for purposes of entertainment with minimal investment outlays. Did you know that it is possible to establish a small Go-Kart entertainment center for an investment as little as Rupees Six Lakhs?

As over the past few months at KnK we have been developing a line of Go karts and Buggies for off-road enthusiasts. The models of these vehicles include a Go-Kart that does not require heavy investment in building a track. The KnK Trailblazer is a kart ideally suited for such purpose. Read more about the KnK Trailblazer by visiting our website by clicking the link below.

If you have any questions in this regard, we invite you to email us any questions and we will respond to your enquiry promptly.

Also a part of the off-road lineup is the new KnK Mudslinger PRO amongst the KnK Mudslinger models as KnK Mudslinger RG and KnK Mudslinger AT. The information on these Buggies can be seen on our website at the following link. <http://www.knkkarts.com/Mudslinger%20SR-II.html>

The KnK Mudslinger PRO makes an ideal single seater Buggy, which makes the driving over the rough terrain to access the location on states and construction sites that previously required the use of a 4X4 vehicle.

The complete package of KnK Mudslinger PRO includes an Electric Start, Automatic Constantly Varying Transmission (CVT), Reverse as well as bright LED Headlights to make the travel over rough terrain an exciting, thrilling and practical means of transportation.

The KnK Sidewinder PRO has similar features as the KnK Mudslinger PRO and is available with a more powerful engine and is built to take two persons. We would be happy to provide more information on this new exciting line of Karts and Buggies if you are interested.

Please do not hesitate to contact us.
