Trailblazing

Almost 20 months after the introduction and announcement of the KnK Trailblazer, Trailblazing tracks offering this thrilling experience are blossoming around the country. Already, facilities in Jharkhand, Mysore, New Delhi, Gurgaon and Uttarakhand are offering Trailblazing. The success of Trailblazing lies with the surface not being a criterion and also that it can be started on a low budget in a very short start up time.

In the next couple of months several more such facilities will come into operation across India, at 10 or 15 new locations. Entrepreneurs looking to start Go-Karting centers can consider the KnK Trailblazer to take the thrill of dirt karting to more areas.

Talk soon.
