Exciting Updates from KnK Karts!

We are happy to share some fantastic news with you! After the successful launch of our new kart models – the **Genesis SXX5** and the 'Build-your-own-kart' concept **Genesis S25** – we have been overwhelmed by the tremendous response from the karting industry.

Tracks across the country have enthusiastically embraced the Genesis S25, customising it to suit their specific needs and usage patterns. This flexibility has allowed track owners to create truly unique karting experiences for their customers, making the S25 a popular choice for all those who want performance, durability and personalisation, all in one package.

Meanwhile, our **Genesis SXX5** premium kart has been gaining strong traction among both our loyal existing partners and new clients. Many of our established tracks have already placed their orders, reaffirming their trust in KnK Karts.

Adding to the excitement, as we approach the monsoon season, we have been working tirelessly behind the scenes to upgrade our off-road kart models. With off-road adventure parks and outdoor tracks preparing for the seasonal rush, pre-bookings for our new off-road karts have been coming in fast, even before the official launch!

The interest we've seen reflects the growing demand for rugged, high-performance karts that can handle the challenges of all-terrain.

Here's what else is happening at KnK Karts:

Continual Innovation: Our R&D team is actively developing new features and performance upgrades, focusing on kart durability, safety and ease of maintenance.

Support for Track Owners: We are enhancing our after-sales services with faster spare parts availability, technical training sessions for mechanics and more personalised customer support.

Track Solutions: As always, KnK Karts in collaboration with Visions Concepts Realities provides complete track solutions, including design consultation, material supply, lighting, drainage and barrier systems – ensuring our partners have everything they need for a world-class setup.

At KnK Karts, we are committed to powering the future of karting in India and beyond.

The journey ahead is exciting, and we are grateful to have your support along the way. Stay tuned for more updates and as always, feel free to reach out to us for any new projects, customisation needs, or even just to say hello!

Let's keep pushing boundaries together!
