

STRAIGHT FORWARD

Welcome back! It's been a while since our last KnK Newsletter, and during this time, there have been numerous positive developments within the company that are truly exciting, let's dive straight in.

Exciting times at KnK Karts! We are happy to share a major development – a strategic partnership with Autologue Design, a prominent name in automotive design and customization.

Brace yourself for a stylish overhaul as our karts undergo a transformation, promising a fresh and eye-catching appearance. This partnership represents our commitment to delivering top-notch quality karts and cutting-edge design along with high performance that sets a new standard in the world of karting. Buckle up for an exhilarating journey with KnK Karts and Autologue Design!

With an increasing focus on clean energy and reducing carbon emissions, our R&D team along with ElettriCo have developed the new KnK Electric EK2, which is an addition to our electric kart lineup. These electric karts provide instant torque, smooth acceleration, and near-silent operation, redefining the karting experience and paving the way for a greener future.

Deepawali,

a festival of light and joy, illuminated the atmosphere at KnK Karts. The Diwali celebration was filled with joy as we marked numerous achievements and shared exciting announcements.

In recognition for their hard work and unwavering loyalty, three of our employees were rewarded with new bikes.

It has truly been a fantastic year for us!!

KnK Buggles Worldwide

Our buggles have found success in various countries such as Mauritius, Brazil, Chile, and Croatia, proving their excellent build quality and gaining popularity among international users.

Happy Customers

We have been using KNK Karts 2 of them.Both of them are performing very well.Suitable for all terrains .Guests have been experiencing adventure with safety . Karts are durable, well designed, safety measures are also taken care. Manuaverability in terms of muddy terrains , suspension design taken care to the maximum extent.

Best karting parts and quality we need

“Revving up Curiosity”

Teens love go-karts, and now colleges are flocking to our factory for industrial trips. College students have always been super interested in seeing the insides of our facility, making our factory a top spot for educational visits.

“Science in Mechanics”

During the India Science Hack Day, our Managing Director, Mr. Ishaan Singh, highlighted the connection between science and the mechanics of a go-kart and its engine. His presentation delved into the fascinating interplay of scientific principles shaping the performance and functionality of these dynamic buggies.

MRF

MRF, a prominent tyre manufacturing brand, has established a close collaboration with us, crafting specialized go-kart tires tailored to our specific needs. This collaboration materialized through rigorous tire testing conducted by KnK Karts, fostering extensive communication and fine-tuning between MRF and our team.

Stay tuned for detailed unveilings, exclusive sneak peeks, and behind-the-scenes insights into KnK Karts.

Until next time, see you round the corner!
Ishaan Singh
