# KnK Newsletter

KnK/NL 0708

July 2008

We have been very busy through July, which is the reason that this newsletter is delayed. Sorry!

## NEW DEVELOPMENTS.

### **Dominator**

The prototype of the new 2009 Dominator designed for professional prokart racing came off the jigs.

The Dominator is ready to be shipped to Guy Tingey in Australia for testing under race conditions in the popular prokart series there.

It will be available early in 2009.

### *Interceptor*

In production now, the Interceptor junior kart. After some extensive tests it is now ready for sale. The first lot of Interceptors will soon be on their way to Australia.

Drivers have praised the Interceptor as being very sure footed and predictable with easy turn in and confidence inspiring corner ability.

We expect to some results from it soon.

Until next time then, thank you for reading with me, we will talk some more soon!

*Indrajeet Singh*
